

SQUASH

About Us

Founded in Boulder, CO by two brothers, Squash is an indie-jam 5-peice band experimenting with new ideas while staying true to the nature of the classic jam-rock status quo. Squash blends the rigid arrangement style of indie rock and classical music with an improvisational touch to ensure that no two performances are the same, ever.

“A balance between unpredictable energy and raw musicianship. Squash is vibrant and mind-melting”

- Front Runner Magazine

“Squash is just developing its following in a genre yet unexplored.”

- Boulder Band Bulletin

Notes

Guitar 1 is next to keyboard, and is the lead vocalist. We have an IEM rig, which is just a transmitter that takes a stereo XLR input, and sends the same mix to everyone. Monitor engineer just needs to feed into the IEM transmitter, and send one mix that everyone hears.
